A Little About Us

We are the richest family and largest tax filer in America
With worldwide accumulated assets in excess of \$600 trillion
With the capability to pay the national debt and all military budget needs

To avoid an imminent financial collapse, we are working an initiative with Congress to replace the Federal Reserve debt system, issuing one quadrillion fiat currency to subsidize the payroll to all employers, increasing the minimum wage to \$100K/yr, repealing all oppressive tax codes, providing free post education and health care
